

To Whom It May Concern,

During our time working with SDP it has been a joy working with Tonya and her staff. To this day we have worked on four plush dolls with her company (one for our convention Shuto Con, and three for our business Creepy Kawaii), and each one of our many revisions to our projects has been met with nothing but care and attentiveness. I highly recommend SDP to anyone seeking to do plush design, and I look forward to doing additional projects with them in the future.
